

The next
generation of
Building Price
Information
is NOW on the

LaxTons LIVE

is a completely new way of
accessing Building Price
Information

Freeing up information

No longer bound within the confines of a book, but available directly to your computer/mobile device from the internet. **LaxtonsLive** uses the latest in database technologies to give you relevant, accurate, up-to-date information, in an easy to use and concise manner.

Powered by the Internet

Available to you wherever you are 24 hours a day, every day, over 155,000 individual prices at your fingertips. Frequently updated by comparing prices on the internet, ensuring your prices are always up-to-date in an ever changing market.

Easy to use

A series of simple easy to follow menus guide you to the relevant information you require. Our unique 'data picker' enables you to select the items you need with ease and build into lists you can use in our on-line estimate generator, or download and use within your own systems.

View at the level you choose

Utilising our database technology you can select at composite-rate level and then drill down to the individual elements for maximum confidence you are delivering the correct prices to your clients.

Customise to your requirements

Regional Indexes are automatically applied. Add your own prelim's and profit figures. Optionally load your own logo and company details to provide a personalised estimate and report. Use as much or as little of the system as you want.

Never lose an estimate again

Use our optional storage facility to store and index your documents for easy retrieval. They are always just a click away.

Update prices with a single click

Having retrieved your estimate why not check it's still correct? Simply click the refresh button and the prices are automatically updated to current prices.

Find your local / site supplier

Use our unique index to find product suppliers in your area.

PRICES

Full Building Price List System *from* **£195** per annum

Excluding Major Works *from* **£75** per annum

The next generation of Building Price Information!

The old way...

Historically building price information has been provided in book form. This involved suppliers sending data to the publishers several months in advance of publication - consequently prices in the book were often six months out of date.

In addition prices had to be converted manually to allow for regional variations, something that was often ignored. This led to estimates that used out of date prices set to the wrong regional index!

The new way...

With **LaxtonsLive** the data is now available via the internet, 24 hours a day, 7 days a week. Prices are automatically converted to your regional index and are regularly checked and updated.

Accessed from your own secure login the data can be browsed and picked into a unique data set which can be downloaded to your PC.

And there's more...

We are working with a number of estimate providers to link the **LaxtonsLive** data set to their systems, with the data set being regularly refreshed by the website. Ask your estimate vendor about linking to the most dynamic price data available.

For more information visit www.laxtonslive.co.uk
or email sales@laxtonslive.com, include your
phone number and we will get back to you.
